Subject: Security report on the besieged Al-Damir district.

To the brother governor, may God protect him

Caliphate on the path of prophecy

Praise be to God, we praise Him, and prayers and peace be upon the one after whom there is no prophet.

As for after

The general security officer of the state, Abu Al-Yaman, assigned Abu Marwan Al-Ghutani and Abu Hudhayfah Al-Ghutani, in cooperation with Abu Hajar Al-Shami from inside the sector, to carry out security work on the Sahwat inside the besieged Al-Dumayr sector. Abu Hudhayfah Al-Ghutani ordered them to do so, as the apostate Abu Hudhayfah gathered the military leaders inside the sector under the pretext of security and military work on the Sahwat, and he was in secret coordination with the Sahwat to kill all the leaders in general. He used to put them in the meeting place, but thanks to God, the operation did not take place. On the same night, he fled to the Sahwat area and stole 6,500, the camera, the stickers, the circuits, an 8.5 caliber pistol, two rocket-propelled grenades, 1,500 Russian bullets, and 7 hand grenades.

When Brother Abu Al-Yaman found out, he neglected the sector and stopped financial and logistical support for the rest of the security brothers in the sector, and the rest of the brothers completed the rest of the work with the simple capabilities available to them.

The security work they did:

1- The explosive device that Abu Hudhayfah placed was modified with a reverse circuit that explodes during dismantling and was sent to the Sahwat. During its dismantling by the apostates, two members of the engineering company were killed, praise be to God.

2- A bomb was sent in the same circuit, and while it was being dismantled again, it killed two apostates and wounded one, praise be to God.

A guided mine was detonated in the Sahwa sector on a motorcycle carrying two Sahwa members. One was killed, thank God...

- An Ansari brother was sent with a sticky bomb to place on one of the apostates' cars. They arrested him and detonated the bomb on him.

A booby-trapped motorcycle was brought into the headquarters of the apostates from the factions of Ahmed Al-Abdo (a military council). An apostate was killed, two were wounded, and an ammunition depot and a fuel barrel were blown up. Praise be to God.

Note: Security brothers have grievances regarding guarantees during their work in the sector.

This, and God is Most High and Most Knowing
